

## **Aged Care Nurse Support**

We are a long-standing community medical practice in Melbourne's north-east with a comprehensive team who ensure that our patients in our partner Aged Care facilities receive quality medical care from our trained GPs and nursing staff. Our GPs are supported by our aged care team based at our clinic in Eltham.

Our GPs visit aged care facilities weekly and work closely with facility staff to ensure our residents are well managed and that their total wellbeing is taken into account.

We are looking for a RN or EN to join our team to assist in providing support to our GPs and our partner facilities. This role is office based and will involve triaging calls from Aged Care facilities, liaising with our GP's, preparing plans and CMA's and other associated administration.

The successful candidate will possess:

- Bachelor of Nursing or Diploma in Nursing
- Current APHRA registration
- Right to work in Australia
- Exceptional communication skills (both verbal and written)
- Sound understand and competency with computers and software
- Ability to work in a team and with a diverse range of internal and external clients

### **About You**

As a Registered Nurse/Enrolled Nurse you will be naturally patient focused and excel in customer service. You will display empathy as well as a genuine desire to support patient's for their treatment journey. You'll also enjoy forming trusting relationships with patients, facilities and colleagues.

In return for joining our team you will have access to:

Supportive GP's, management & clinic staff as well as modern practices with well-equipped treatment rooms, competitive salary and conditions and further training

Applications close on **Friday 24 May 2019**.

Only candidates short listed will be contacted.
